Dear Kaihang:

I am pleased to inform you that you have been selected to participate in the Mentored Teaching Fellowship (MTF) Program sponsored by NC State's College of Engineering for the Fall 18 semester. Dr. Keith Gubbins will serve as your mentor for providing teaching assistance for CHE 713 . In addition to your normal teaching assistantship stipend, you will receive an extra stipend of \$1000 for the semester from the College of Engineering. You will need to meet with your faculty mentor at least once a week to discuss your progress.

As a Mentored Teaching fellow, you and the professor are expected to submit a joint paper in which you summarize your activities and make recommendations on ways to enhance the MTF program (one page).

Congratulations on being selected to participate in the MTF Program. I trust that you will find this to be a rewarding, educational, and professional experience.

Sincerely,

Robyn Fillinger
Manager of Graduate Programs and Student Services
