

Kaihang Shi

Comments:

Kaihang saved the course!

Kaihang Shi -Very patient -Very good at answering questions -Very clear when explaining -Very positive attitude, seemed like he genuinely enjoyed answering questions and teaching and didn't just see it as a job he had to do

Kaihang in particular was an excellent TA. His lectures were very helpful.

Kaihang actually made a lot of effort to make us understand the course more than the instructor himself.

Kaihang did an excellent job.

The TAs were available on Tuesdays, but Thursday office hours were not helpful because the next week's homework assignment hadn't been released yet.

Kaihang Shi is one of the best TA's we've had this semester, and for all of the above criteria, he met the "strongly agree" option. He was very knowledgeable and respectful and was able to explain a very abstract subject very well. He always answered questions and responded to emails pretty quickly.

Kaihang was an excellent TA, he seemed to genuinely care about the students, and did his best to answer questions and help out.

All the TA's were great! Kaihang helped speak with me on several occasions about some issues and I appreciate what he has done as the TA for the in class section.

All of my answers refer to Kaihang. Kaihang is the best TA I've ever had. He's always very open to questions and he will grind through questions. He's a great TA and deserves every award possible for his skills.

Only ONE TA was made available to the distance ed students in this class but I think one of the other two TAs could have stepped in more to help offer more assistance to the distance students.
